HONDA 1965-1978 WORKSHOP MANUAL 125cc, 160cc, 175cc & 200cc TWIN CYLINDER CENTER CAM DRIVE Nov 07 2021 116 pages, with more than 360 illustrations and diagrams, size 8.25 x 10.75 inches. At the time of Floyd Clymer's unexpected demise in 1970, there were a number of manuals that had been completed and were ready for publication. This 'Honda 125cc - 200cc' is one of those completed but previously unpublished compilations of various Honda Factory Manuals for the 125cc, 160cc, 175cc and 200cc center cam drive twins. While this manual was likely completed in early 1970 it

actually covers the 1964 through 1978 street, scrambler and motosport models. The primary focus is the maintenance and repair of the major mechanical and electrical components including: Engine, Transmission, Clutch, Fuel, Electrical, Frame, Suspension and Steering. Owners of the earlier 125-150cc C92 & C95 twin cylinder 'Benly' series (1959-1966) are directed to our Honda factory workshop manual ISBN 9781588500823 which is exclusive to those models. After his visit to Japan in 1961, Floyd Clymer published 'The Complete Catalog of Japanese Motor Vehicles' (ISBN 9781588502209). Based on his experiences during that visit, Floyd also anticipated the need for repair manuals for those Japanese motorcycles that were just starting to be imported into the USA [Yamaha (1958), Honda (1959), Suzuki (1963)]. The predominance of the Floyd Clymer Japanese motorcycle manuals were reprints or compilations of the factory publications, which today makes them more desirable than the current aftermarket manuals.
