Tank Warfare, 1939-1945 Aug 24 2020 On the battlefields of Europe and North Africa during the Second World War tanks played a key role, and the intense pressure of combat drove forward tank design and tactics at an extraordinary rate. In a few years, on all sides, tank warfare was transformed. This is

the dramatic process that Simon and Jonathan Forty chronicle in this heavily illustrated history. They describe the fundamentals of pre-war tank design and compare the theories formulated in the 1930s as to how they should be used in battle. Then they show how the harsh experience of the German blitzkrieg campaigns in Poland, France and the Soviet Union compelled the Western Allies to reconsider their equipment, organization and tactics □ and how the Germans responded to the Allied challenge. The speed of progress is demonstrated in the selection of over 180 archive photographs which record, as only photographs can, the conditions of war on each battle front. They also give a vivid impression of what armoured warfare was like for the tank crews of 75 years ago.

Technical Diving from the Bottom Up Dec 16 2019 'Technical Diving From The Bottom Up' is a guide to both 'would be' and experienced technical divers. Covering a range of topics, it is designed to guide the reader through the basics such as physiology and equipment configuration, before moving onto deep mixed gas decompression diving and the use of rebreathers.

AppleScript: The Missing Manual Mar 19 2020 From newspapers to NASA, Mac users around the world use AppleScript to automate their daily computing routines. Famed for its similarity to English and its ease of integration with other programs, AppleScript is the perfect programming language for time-squeezed Mac fans. As beginners quickly realize, however, AppleScript has one major shortcoming: it comes without a manual.No more. You don't need a degree in computer science, a fancy system administrator title, or even a pocket protector and pair of nerdy glasses to learn the Mac's most popular scripting language; you just need the proper guide at your side. AppleScript: The Missing Manual is that guide.Brilliantly compiled by author Adam Goldstein,

AppleScript: The Missing Manual is brimming with useful examples. You'll learn how to clean up your Desktop with a single click, for example, and how to automatically optimize pictures for a website. Along the way, you'll learn the overall grammar of AppleScript, so you can write your own customized scripts when you feel the need. Naturally, AppleScript: The Missing Manual isn't merely for the uninitiated scripter. While its hands-on approach certainly keeps novices from feeling intimidated, this comprehensive guide is also suited for system administrators, web and graphics professionals, musicians, scientists, mathematicians, engineers, and others who need to learn the ins and outs of AppleScript for their daily work. Thanks to AppleScript: The Missing Manual, the path from consumer to seasoned scripter has never been clearer. Now you, too, can automate your Macintosh in no time.

Catalog of Copyright Entries. Third Series Feb 16 2020
Includes Part 1A, Number 1: Books (January - June) and Part 1B, Number 1: Pamphlets, Serials and Contributions to Periodicals (January - June)

The Panther V in Combat Oct 06 2021 The Panther V evidenced a number of problems in combat, and this was the proof of the rushed development programme that was made obvious from the events at Kursk. However, despite its disappointing battlefield debut, the Panther is frequently hailed as the best all round tank of the war. This fascinating study by Emmy award winning author and historian Bob Carruthers draws on a wide variety of combat reports and unique primary sources to weigh up the facts in order to produce the definitive single volume overview of a legendary fighting machine. Included are numerous examples of wartime combat reports from both Allied and German sources, additionally there are a large selection of extracts from the Pantherfibel, the original crew training manual. This

superb book is essential reading for anyone interested in tank warfare during World War II.

Excel 2003: The Missing Manual Jul 23 2020 Whether you are an Excel neophyte, a sophisticate who knows the program inside out, or an intermediate-level plodder eager to hone your skills, Excel: The Missing Manual is sure to become your go-to resource for all things Excel. Covering all the features of Excel 2002 and 2003, the most recent versions for Windows, Excel: The Missing Manual is an easy-to-read, thorough and downright enjoyable guide to one of the world's most popular, (and annoyingly complicated!) computer programs. Never a candidate for "the most user-friendly of Microsoft programs," Excel demands study, practice and dedication to gain even a working knowledge of the basics. Excel 2003 is probably even tougher to use than any previous version of Excel. However, despite its fairly steep learning curve, this marvelously rich program enables users of every stripe to turn data into information using tools to analyze, communicate, and share knowledge. Excel can help you to collaborate effectively, and protect and control access to your work. Power users can take advantage of industry-standard Extensible Markup Language (XML) data to connect to business processes. To unleash the power of the program and mine the full potential of their database talents, users need an authoritative and friendly resource. None is more authoritative or friendlier than Excel: The Missing Manual. Not only does the book provide exhaustive coverage of the basics, it provides numerous tips and tricks, as well as advanced data analysis, programming and Web interface knowledge that pros can adopt for their latest project. Neophytes will find everything they need to create professional spreadsheets and become confident users. Excel: The Missing Manual covers: worksheet basics, formulas and functions, organizing worksheets, charts and graphics, advanced data analysis, sharing data with the rest

of the world, and programming. If you buy just one book about using Excel, this has GOT to be it. This book has all you need to help you excel at Excel.

Speaking about Science Nov 14 2019 "Speaking About Science : A Manual for Creating Clear Presentations is essential reading for anyone who presents data at meetings and conferences. Based on the curriculum that authors have developed for their public speaking courses, the book provides the practical tools all speakers need to create clear and compelling presentations for any audience."--BOOK JACKET.

Panzers at War Sep 24 2020 Panzers at War takes us around and inside the tanks of the German military during World War II, ranging from the two-man 6-ton Panzer I light tank, armed only with machine guns, to the five-man 70-ton Tiger B tank armed with the powerful 88mm main gun that inspired fear among all its opponents. The At War series features accessibly-written books on military equipment and elite military units, including exciting first person accounts and descriptions of combat and equipment through the eyes soldiers and other military personnel.

Projected Scenery Jun 14 2022

The Black Panther Party Sep 05 2021 The Black Panther Party represents Black Panther Party members' coordinated responses over the last four decades to the failure of city, state, and federal bureaucrats to address the basic needs of their respective communities. The Party pioneered free social service programs that are now in the mainstream of American life. The Party's Sickle Cell Anemia Research Foundation, operated with Oakland's Children's Hospital, was among the nation's first such testing programs. Its Free Breakfast Program served as a model for national programs. Other initiatives included free clinics, grocery giveaways, school and education programs, senior programs, and legal aid programs. Published here for the first time in book form, The Black

Panther Party makes the case that the programs' methods are viable models for addressing the persistent, basic social injustices and economic problems of today's American cities and suburbs.

The Panzer Killers May 21 2020 A general-turned-historian reveals the remarkable battlefield heroics of Major General Maurice Rose, the World War II tank commander whose 3rd Armored Division struck fear into the hearts of Hitler's panzer crews. "The Panzer Killers is a great book, vividly written and shrewdly observed."—The Wall Street Journal Two months after D-Day, the Allies found themselves in a stalemate in Normandy, having suffered enormous casualties attempting to push through hedgerow country. Troops were spent, and American tankers, lacking the tactics and leadership to deal with the terrain, were losing their spirit. General George Patton and the other top U.S. commanders needed an officer who knew how to break the impasse and roll over the Germans—they needed one man with the grit and the vision to take the war all the way to the Rhine. Patton and his peers selected Maurice Rose. The son of a rabbi, Rose never discussed his Jewish heritage. But his ferocity on the battlefield reflected an inner flame. He led his 3rd Armored Division not from a command post but from the first vehicle in formation, charging headfirst into a fight. He devised innovative tactics, made the most of American weapons, and personally chose the cadre of young officers who drove his division forward. From Normandy to the West Wall, from the Battle of the Bulge to the final charge across Germany, Maurice Rose's deadly division of tanks blasted through enemy lines and pursued the enemy with a remarkable intensity. In *The Panzer Killers*, Daniel P. Bolger, a retired lieutenant general and Iraq War veteran, offers up a lively, dramatic tale of Rose's heroism. Along the way, Bolger infuses the narrative with fascinating insights that could only come

from an author who has commanded tank forces in combat. The result is a unique and masterful story of battlefield leadership, destined to become a classic.

The Panther Woman Nov 26 2020 The result of their collaboration is seen in "The Panther Woman," a performer's view of her exciting and exhausting life on the road; "Turbulent Years," the recollections of a political activity, imprisoned during World War II, who went on to become a leader in building a socialist society in East Germany; "A Bathtub Full of Whipped Cream," the life of a historian, working as a public official in charge of parks and museums, who speaks of the difficulties and ideological conflicts in the East German government; "Swimming the Relay," the humorous account of a commercial manager's random education, professional choices, and frustrated love life; and "Twins,," a young mother's description of her life at home and at the factory. These are contemporary women rarely heard from, revealing themselves in their individual concerns and distinctive speech patterns. In a new afterword to this English edition, Sarah Kirsch describes how she developed the intimate form of *The Panther Woman*.

PC Mag Jan 29 2021 PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

[Technical Manuals for German Vehicles, Volume 2.](#)

[Sonderkraftfahrzeug](#) Feb 22 2023 This book contains a listings of technical manuals for the repair and maintenance of German World War II armored vehicles. Each vehicle is listed by its Sd Kfz number, followed by a list of the known manuals which you would require to repair and maintain both the vehicle and the equipment it would carry including radios, weapons, and other equipment. This not only includes the

military manuals, but also pamphlets, announcements, and any civilian company manuals used to maintain on board equipment. Manuals include those published for the Heer and Luftwaffe. All manual titles have been translated into American English.

Chameleons Feb 10 2022 The one and only chameleon is world renowned for its ability to change its skin color rapidly (throughout movement of pigment cells) and for the outrageous length of its tongue (more than one and a half times its body length!). Relatives of agamids and iguanas, chameleons are insect-eating, tree climbing reptiles that have highly specialized needs. Written by a team of experienced herp experts, Chameleons intends to instruct keepers on how to best care for their chameleons and covers the four most commonly kept species: Jackson's chameleon with its prized triceratops horns on its head, panther chameleon with its spectacular coloration, veiled chameleon with its unusual casque on its head, and the rather large Parson's chameleon. The book subsequently is divided into four parts, each including an introduction and natural history, captive care, and reproduction of the species. Part I, Jackson's Chameleon was written by Sean McKeown; Part II, Panther Chameleon by Gary Ferguson, James B. Murphy, Achille Raselimanana, and Jean-Baptiste Ramanamanjato; Part III, Veiled Chameleon and Part IV, Parson's Chameleon by Kenneth Kalisch. References and index included.

Home Networking: The Missing Manual Nov 07 2021 Millions of computers around the world today are connected by the Internet, so why is it still so hard to hook up a few PCs in you own home? Whether you want to share an Internet connection, install WiFi, or maybe just cut down on the number of printers you own, home networks are supposed to help make your life easier. Instead, most aspiring home networkers get lost in a confusing maze of terms and

technologies: 802.11g, Fast Ethernet, Cat 5 cable (or was it Cat 5e?), Powerline, and on and confusingly on. That's where Home Networking: The Missing Manual comes in. Using clear language, straightforward explanations, and a dash of humor, this book shows you how to do everything you need to set up a home network. Coverage includes: WiFi, Ethernet, or Powerline? There are several kinds of digital pipes that you can use to create your network, and none of them have friendly names. This book tells you what they are, explains the pros and cons of each, and helps you figure out what you need to buy, and how to install it. Windows and Mac info included. Half the battle in home networking takes place after you've bought your gear and plugged it in. That's because the routers, network adapters, and cables that you need get you only part way towards networking nirvana. Whether you've got PCs or Macs or both, you'll need help tweaking your computers' settings if you want to get all your machines talking to each other. This book covers most known operating system flavors, including Windows XP, 2000, Me, and 98, and Mac OS X and OS 9. Fun things to do with your network. The real fun starts once your network is up and running. This book shows you how to do much more than simply share an Internet connection and a printer. You'll learn how to stream music from your PCs to your stereo, how to display pictures on your TV, how to hook up game consoles to your network, and more! Most important, this book helps you understand the difference between what you need to know to create and use your home network and what's best left to those looking for a career as a system administrator. In Home Networking: The Missing Manual you'll find everything you need to get your network running-and nothing more.

Hitler's Tanks May 13 2022 The Panzers that rolled over Europe were Germany's most famous fighting force, and are some of the most enduring symbols of World War II. However,

at the start of the war, Germany's tanks were nothing extraordinary and it was operational encounters such as facing the Soviet T-34 during Operation Barbarossa which prompted their intensive development. Tactical innovation gave them an edge where technological development had not, making Hitler's tanks a formidable enemy. Hitler's Tanks details the development and operational history of the light Panzer I and II, developed in the 1930s, the medium tanks that were the backbone of the Panzer Divisions, the Tiger, and the formidable King Tiger, the heaviest tank to see combat in World War II. Drawing on Osprey's unique and extensive armour archive, Chris McNab skilfully weaves together the story of the fearsome tanks that transformed armoured warfare and revolutionised land warfare forever.

Snowmobile Service Manual Jan 09 2022

Panther Tank Enthusiasts' Manual Dec 20 2022 Regarded by many as one of the greatest tanks ever built, the German Panther is probably the finest medium tank of the Second World War and certainly the most numerous German panzer in wartime service, with some 7,000 built. It combined firepower, armour protection and mobility that was unmatched by any other tank of the period. In the Panther Tank Enthusiasts' Manual, author Mark Healy looks at the development, construction and fighting qualities of the Panther, as well as including insights into what it was like to operate and maintain. He focuses on surviving Panthers at the German Armour Museum in Munster (Panther Ausf A) and the later Panther Ausf G at the Tank Museum, Bovington, as his centrepieces and draws on a range of documentary and photographic information sources in Germany, the USA and France.

Dreamweaver MX 2004: the Missing Manual Jan 17 2020 Features step-by-step instructions explaining how to build a Web page, link from one page to another, spice up the design

with graphics, apply cascading style sheets, view the underlying HTML code, and collect information using forms.

A Panther's Father II Apr 19 2020 ?Granny Z? or Zella Roosevelt, a cherished and beloved 105-year-old ancient storyteller, continues telling her amazing children tales encompassing her family's history from within a blind alleyway in New York City to youngsters seeking life's acceptance and love. And, as always, her rebellious grandson known as the Panther or JeanPaul follows life's challenging paths and is now a Most Wanted man in the dangerous world of underground forfeit fighting. Granny Z's son, Ricky Roosevelt, and Ricky's best friend, Buster Brocks, continue trying to protect Los Angeles as LAPD Supervisors. JeanPaul's mother is now married to Terry Bradhearst who makes daily financial decisions that impacts the world. God is in this book. And Jesus. And the Holy Spirit. And God's Angels. There is also Officer Oliver, Colonel Bradley, and General Reynolds. And Victoria Roosevelt who is also known by her fellow US Marines as Vicious.

Congressional Record Oct 26 2020 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Gray Panthers Jun 21 2020 In 1970, a sixty-five-year-old Philadelphian named Maggie Kuhn began vocally opposing the notion of mandatory retirement. Taking inspiration from the civil rights and anti-Vietnam War movements, Kuhn and her cohorts created an activist organization that quickly gained momentum as the Gray Panthers. After receiving national publicity for her efforts—she even appeared on the Tonight

Show with Johnny Carson—she gained thousands of supporters, young and old. Their cause expanded to include universal health care, nursing home reform, affordable and accessible housing, defense of Social Security, and elimination of nuclear weapons. *Gray Panthers* traces the roots of Maggie Kuhn's social justice agenda to her years as a YWCA and Presbyterian Church staff member. It tells the nearly forty-year story of the intergenerational grassroots movement that Kuhn founded and its scores of local groups. During the 1980s, more than one hundred chapters were tackling local and national issues. By the 1990s the ranks of older members were thinning and most young members had departed, many to pursue careers in public service. But despite its challenges, including Kuhn's death in 1995, the movement continues today. Roger Sanjek examines Gray Panther activism over four decades. Here the inner workings and dynamics of the movement emerge: the development of network leadership, local projects and tactics, conflict with the national office, and the intergenerational political ties that made the group unique among contemporary activist groups. Part ethnography, part history, part memoir, *Gray Panthers* draws on archives and interviews as well as the author's thirty years of personal involvement. With the impending retirement of the baby boomers, Sanjek's book will surely inform the debates and discussions to follow: on retirement, health care, and many other aspects of aging in a society that has long valued youth above all.

Black Panther Aug 04 2021 "Discover all you need to know about the sensational Black Panther! With key themes and storylines, detailed character studies, and an in-depth look at the most iconic comics." --

Clymer Snowmobile Service Manual 11th Edition Jul 03 2021 With the help of the Clymer Snowmobile Service Manual 11th Edition in your toolbox, you will be able to maintain, service

and repair your snowmobile to extend its life for years to come. Clymer manuals are very well known for their thorough and comprehensive nature. This manual is loaded with step-by-step procedures along with detailed photography, exploded views, charts and diagrams to enhance the steps associated with a service or repair task. This Clymer manual is organized by subsystem, with procedures grouped together for specific topics, such as front suspension, brake system, engine and transmission. It includes color wiring diagrams. The language used in this Clymer repair manual is targeted toward the novice mechanic, but is also very valuable for the experienced mechanic. The service manual by Clymer is an authoritative piece of DIY literature and should provide you the confidence you need to get the job done and save money too.

FIRST BOOK FOR UNDERSTANDING DIABETES. Oct 14 2019
Book of the Panther 600 & 650 C.C. Heavyweight Motorcycles Models 100 (1938-63) & 120 (1959-66) Apr 12 2022 Originally published under the title The Book of the Panther (H/WT) by W.C. Haycraft. This book is one of The Motorcyclist's Library series published in the USA by Floyd Clymer by arrangement with the original publishers, Pitman Ltd. of London, England.

Mac OS X Panther Edition Nov 19 2022 Demonstrates the operating system's basic features, including Internet access, file management, configuring the desktop, installing peripherals, and working with applications.

Foreign Panthers Oct 18 2022 A study of the little-known career of Germany's Panther, perhaps the greatest tank of World War II, in foreign hands both during and after the war. The Panther was arguably the most successful medium tank design of World War II, demonstrated by the number of Germany's enemies that used them after, and even during the war. While some were used by the Western Allies, the Russians used the greatest number of captured Panthers against Nazi Germany, though they did not find much favour

thanks to their mechanical unreliability and difficulty in acquiring spare parts. After the war, they were mostly passed on to satellite states such as Bulgaria and Romania. The French army also used them in significant numbers after the war with approximately 50 in service from 1946 to 1950, and they were a significant influence on future French tank design. Using detailed artwork and contemporary photographs, this fascinating book tells the little-known story of the Panther tank in foreign hands in World War II and beyond.

German Army Manuals of World War II Jul 15 2022

Persuasion and Social Movements Dec 28 2020 Conflict over moral, religious, social, political, and economic values fuel social movements. People form organized collectivities to promote or to oppose changes in societal norms and values. The steady growth in globalization and access to information have increased the perception of threats to identity, values, and culture. Persuasion and Social Movements provides a solid foundation for understanding how people collectively shape society. The latest edition marks three decades of synthesizing, applying, and extending research and theories about the persuasive efforts of social movements. Historic and current examples illustrate the many facets of social movement persuasion: Persuasion is inherently practical; we can study it most profitably by examining the functions of persuasive acts. Even apparently irrational acts make sense to the actor effective analysis discovers the reasoning behind the acts. People create and comprehend their world through symbols, and it is people who create, use, ignore, or act on these symbolic creations. Although they remain important in social movement persuasion, speeches are now one of many resources for organizing and carrying out a variety of protests. New technologies have transformed how social movements come into existence, constitute organizations, establish coalitions, pressure institutions, and communicate with a wide

variety of audiences. Social movements sometimes sell conspiracy theories to skeptical audiences, justify inherently divisive tactics, and use violence as a rhetorical strategy. Institutions and countermovements have a variety of strategies for resistance.

Leopard Gecko Manual Jun 02 2021 The panther gecko has quick become the reptilian adaptation of the parakeet or goldfish. Viewed as the primary tamed types of reptile, the panther gecko is appealing, superbly estimated, and simple to breed. Panther Gecko Manual investigates every one of the attributes that have made these appealing reptiles so incredibly prevalent in the pet world. Composed by a group of herpetoculture specialists and gecko pros, this forward-thinking and legitimate guide gives dependable rules to managers who wish to add a gecko to their vivarium and keep up their pet in superb wellbeing and condition. This subsequent release is overhauled and extended to incorporate new segments on Gecko sustenance and sustaining, lodging, reproducing, and united Geckos. Inside the Leopard Gecko Manual: Instructions to choose panther geckos as pets or for rearing Understanding the life structures and conduct of these entrancing reptiles Bolstering your panther gecko a healthfully solid eating regimen, with the most recent bits of knowledge on feeder bugs and arranged nourishments The most effective method to plan and keep up the perfect naturalistic territory for your panther gecko Nitty gritty data on all parts of rearing, egg-laying, and hatching What you have to think about skin shedding cycles and tail misfortune Perceiving indications of illness and how to deal with medical problems Extraordinary sections on African fat-followed geckos and different eublepharids

Journal of Human Services Abstracts Feb 27 2021

Modding Mac OS X Dec 08 2021 Sadun shows users how to take control over the way their applications look and behave

and provides a structured overview of how to hack system and application preferences and resources to change the look and feel of their Macs.

The Gray Panther Manual Sep 17 2022

Panther Chameleons, Complete Owner's Manual Aug 16 2022

This book is a must have for anyone owning or thinking about owning a panther chameleon. It includes the following chapters: Introduction What makes them amazing pets? Is it the right pet for you? Its origins General information Buying one What you need to buy for it Handling and caring for it Feeding it Its health and yours Breeding them Prices, costs and where to buy them Conclusion Panther chameleons are truly wonderful and beautiful creatures. They make amazing pets, but the owner does need to be well informed. This book is full of vital information, but also is fun and easy to read. So get it now.

The U.S. Army/Marine Corps Counterinsurgency Field Manual Mar 31 2021 When the U.S. military invaded Iraq, it lacked a common understanding of the problems inherent in counterinsurgency campaigns. It had neither studied them, nor developed doctrine and tactics to deal with them. It is fair to say that in 2003, most Army officers knew more about the U.S. Civil War than they did about counterinsurgency. The U.S. Army / Marine Corps Counterinsurgency Field Manual was written to fill that void. The result of unprecedented collaboration among top U.S. military experts, scholars, and practitioners in the field, the manual espouses an approach to combat that emphasizes constant adaptation and learning, the importance of decentralized decision-making, the need to understand local politics and customs, and the key role of intelligence in winning the support of the population. The manual also emphasizes the paradoxical and often counterintuitive nature of counterinsurgency operations:

sometimes the more you protect your forces, the less secure you are; sometimes the more force you use, the less effective it is; sometimes doing nothing is the best reaction. An new introduction by Sarah Sewall, director of the Carr Center for Human Rights Policy at Harvard's Kennedy School of Government, places the manual in critical and historical perspective, explaining the significance and potential impact of this revolutionary challenge to conventional U.S. military doctrine. An attempt by our military to redefine itself in the aftermath of 9/11 and the new world of international terrorism, The U.S. Army / Marine Corps Counterinsurgency Field Manual will play a vital role in American military campaigns for years to come. The University of Chicago Press will donate a portion of the proceeds from this book to the Fisher House Foundation, a private-public partnership that supports the families of America's injured servicemen. To learn more about the Fisher House Foundation, visit www.fisherhouse.org.

AK4812 - TANKER TECHNIQUES MAGAZINE 02 (FRENCH) May 01 2021 Second issue, the level is even higher than in issue 1, with 104 pages dedicated to more amazing armor, with reference sections, specialized techniques, product map, and our famous school of techniques. A must have magazine for lovers of military and civilian vehicles and for modellers who love quality modelling.

Mac OS X Panther Hacks Mar 11 2002 Like the animal it's named for, Mac OS X Panther is beautiful, sleek, superbly efficient, dangerously alluring, and all muscle under the surface. Beneath its appealing interface, it's a hard-working machine. Those coming to Mac OS X from previous incarnations of the operating system recognize much of the friendly face of the Macintosh they're used to, but they're also plunged into a whole new world. Unix converts to Mac OS X find a familiar FreeBSD-like operating system at the core and

many of the command-line applications that they're familiar with: it's like an open invitation to roll up their sleeves and hack. Mac OS X Panther Hacks brings together the perfect combination of tips, tricks, and tools to help serious Mac users--regardless of their background--get the most from their machines. This revised collection reflects the real-world know-how of those well-steeped in Unix history and expertise, sharing their no-nonsense, sometimes quick-and-dirty solutions to administering and taking full advantage of everything a Unix desktop has to offer: Web, Mail, and FTP serving, security services, SSH, Perl and shell scripting, compiling, configuring, scheduling, networking, and hacking. Add to that the experience of die-hard Macintosh users, customizing and modifying their hardware and software to meet their needs. The end result is cool stuff no power user should be without. The hacks in the book range from the quick and easy to the more complex. Each can be read easily in a few minutes, saving countless hours of searching for the right answer. Mac OS X Panther Hacks provides direct, hands-on solutions in topics such as: User Interface Accessories (iPod, USB devices, mobile phones, PDAs, etc.) Wired and wireless networking (Ethernet, WiFi, Bluetooth, etc.) Email (servers and clients) Web (servers and clients) Messaging (iChat and associated apps) Printing and Faxing (sharing printers, fax server, etc.) Multimedia If you want more than your average Mac user--you want to explore and experiment, unearth shortcuts, create useful tools, and come up with fun things to try on your own--this book will set you on the right track. Written for users who need to go beyond what's covered in conventional manuals--Mac OS X Panther Hacks will bring your Mac to its full potential.
