Envision a math program that engages your students as it strengthens their understanding of math. enVisionMATH uses problem based interactive learning and visual learning to deepen conceptual understanding. It incorporates bar diagram visual tools to help students be better problem solvers, and it provides data-driven differentiated instruction to ensure success for every student. The best part, however, is that this success is proven by independent, scientific research. Envision more, enVisionMATH! Ready-to-use therapeutic exercises for overcoming parenting deficits The Parenting Skills Homework Planner provides complete, customizable, copy-ready exercises for use with parents in therapy. Designed as a companion for the Parenting Skills Treatment Planner, this invaluable resource can also be used alone to facilitate counseling and help clients take a more proactive role. Organized by topic, each section provides specific goals for each exercise and suggests additional exercises that may help clients organize their thoughts and behaviors surrounding complex family dynamics. From behavioral problems and negative relationships to career development, blended families, grandparenting, and much more, this book provides practical tools for therapists helping clients navigate the landmines of parenthood. In an era of brief therapy, tangible homework assignments help clients continue their therapeutic work outside of the session, offering a quicker, more effective route to solving parenting skills deficits. This book provides insightful prompts and helpful exercises designed to uncover the root of the problem, focus on a solution, and help clients think deeply and critically about past and ongoing behaviors and habits. Use tested homework assignments independently, or in alignment with the Parenting Skills Treatment Planner Customize each exercise to suit each client's situation using downloadable files Help clients get more out of therapy by using time between sessions productively Tackle issues relating to abuse, depression, school difficulties, divorce, poverty, and more Today's complex family structures, combined with increased childhood pressures from school, peers, and the general culture, make parenting a more difficult job than ever before. Homework assignments extend therapy into family time, and facilitate constructive thought and discussion outside of the session. With 60 customizable exercises tailored to specific parenting problems, the Parenting Skills Homework Planner is an essential resource for the family therapist. MORE! Second edition is a four-level English course from recognised authors for lower secondary students. This new edition is bursting with added features and an even more user-friendly design to capture young teenagers' imagination and help improve their learning. The course encourages reading for pleasure with new adventure photostories and

engaging texts. Both CLIL sections, now an integral part of each lesson, and mini-projects inspire teenagers' natural curiosity. In addition to dedicated grammar, vocabulary and skills sections, MORE! also helps improve your students' exam results with new exam skills sections and learning tips in the Workbook. Each level of MORE! offers 80-90 hours of teaching material and a rich choice of digital components for you and your students. Cyber Homework and web resources make homework and language practice enjoyable for students, while the Interactive Classroom DVD-ROM, Testbuilder CD-ROM and DVD provide additional support with teaching and monitoring your students' progress. Pearson Mathematics student book for Year 8 follows the Australian Curriculum for Mathematics. It has been strategically designed to attract maximum student engagement, develop a deep understanding of key concepts and skills, and to encourage inquiry and problem solving. This student book provides you with extensive material, with a collection of maths games, investigations, problem solving tasks, revision activities, practice questions and technology explorations. Additionally, a mini, re-usable whiteboard has been provided, in the back of Pearson Mathematics student book for Year 8, to help encourage active participation from your students. All exercises within the student books are split into the Australian Curriculum proficiency strands: fluency, understanding and reasoning. You'll also find open-ended questions that encourage creative maths thinking. Accuracy has been observed by this series, with experienced teachers carefully checking every question within Pearson Mathematics - up to five times!

Envision a math program that engages your students as it strengthens their understanding of math. enVisionMATH uses problem based interactive learning and visual learning to deepen conceptual understanding. It incorporates bar diagram visual tools to help students be better problem solvers, and it provides data-driven differentiated instruction to ensure success for every student. The best part, however, is that this success is proven by independent, scientific research. Envision more, enVisionMATH Wider World is the portal to a fascinating world of English language knowledge and skills for the 21st century learner. The combination of authentic and engaging videos from the BBC with Pearson's ELT expertise gives teenage learners everything they need to achieve their goals in the wider world. ? Chapter selection covers all the necessary topics for a basic understanding of circuit analysis. Op-Amp coverage is integrated throughout when appropriate in chapters 3,4,5 and 8. ? Irwin does it better than any other text in the market! This brief text offers students the most accessible and proven presentation of any circuit analysis text available. Through real-world examples and reader friendly explanations students will be motivated to learn this topic . ? Practice makes perfect. With the inclusion of many example problems to the Applications sections throughout the text and the availability of eGrade, an on-line quizzing function students will have the opportunity to practice, practice, practice...that is until they get it right. ? Are you concerned with how well your students are grasping concepts? Special Exercises and drill problems help students assess proper problem-solving techniques needed to solve chapter problems. ? Options are always available! Irwin offers a variety of end-of-chapter problems that range from basic to advanced. Basic problems, which graduate in difficulty are further subdivided and referenced to chapter subsections while the more advanced problems require the use of multiple techniques with no assistance. Also included are problems, which students would typically find on the FE Exam. ? New! Web-based learning – Circuit Solutions is an innovative web-based learning site available in conjunction with this text. Students walk through carefully produced solutions to select end of chapter problems one step at a time. The site illustrates the necessary concepts that should be applied when solving each problem. Important theories and definitions are highlighted throughout the program, solidifying the key concepts taught in the book. GoGetter is a new multi-level secondary course designed to inspire 21st Century learners and help them achieve their language goals. Exam practice is seamlessly integrated and innovative multimedia includes authentic BBC content which students can access in the classroom or at home. Envision a math program that engages your students as it strengthens their understanding of math. enVisionMATH uses problem based interactive learning and visual learning to deepen conceptual understanding. It incorporates bar diagram visual tools to help students be better problem solvers, and it provides data-driven differentiated instruction to ensure success for every student. The best part, however, is that this success is proven by independent, scientific research. Envision more, enVisionMATH! Wider World is the portal to a fascinating world of English Language knowledge and skills for the 21st century learner. The combination of authentic and engaging videos from the BBC with Pearson's ELT expertise gives teenage learners everything they need to achieve their goals in the wider world. Closely matches the Student's Book layout Listening tracks available to download from the Student's site Literature insight offers ready-made extra lessons which introduce students to classic pieces of English literature Extra support and practice of the grammar from the Student's Book in the Grammar reference section A unit-by-unit wordlist with dictionary style definitions which gives students more information about core vocabulary Allows you to assign extra homework to be done online, and track your students' progress Over 200 activities for students to practise vocabulary, grammar and skills, with new audio for the Listening tasks Speak and record practice and writing tasks that students submit to teacher give more opportunities to practise these important skills away from the classroom Video, audio, wordlists, language bank and grammar references are all integrated with the activities so everything is easily accessible and in one place Instant feedback on answers and unlimited attempts on activities inspires autonomous learning The access code for Online Practice is on a card with the Workbook Wider World is the portal to a fascinating

world of English Language knowledge and skills for the 21st century learner. The combination of authentic and engaging videos from the BBC with Pearson's ELT expertise gives teenage learners everything they need to achieve their goals in the wider world. Active Maths Practice & Homework 6 is arranged in units, which provide an open-ended task for the week, exercises in mental computation, review of concepts tackled in the previous week, and ample practice of the current week's work. Active Maths Practice & Homework 6 is ideal for homework or extra practice in the classroom. Essential Cell Biology provides a readily accessible introduction to the central concepts of cell biology, and its lively, clear writing and exceptional illustrations make it the ideal textbook for a first course in both cell and molecular biology. The text and figures are easy-to-follow, accurate, clear, and engaging for the introductory student. Molecular detail has been kept to a minimum in order to provide the reader with a cohesive conceptual framework for the basic science that underlies our current understanding of all of biology, including the biomedical sciences. The Fourth Edition has been thoroughly revised, and covers the latest developments in this fast-moving field, yet retains the academic level and length of the previous edition. The book is accompanied by a rich package of online student and instructor resources, including over 130 narrated movies, an expanded and updated Question Bank. Essential Cell Biology, Fourth Edition is additionally supported by the Garland Science Learning System. This homework platform is designed to evaluate and improve student performance and allows instructors to select assignments on specific topics and review the performance of the entire class, as well as individual students, via the instructor dashboard. Students receive immediate feedback on their mastery of the topics, and will be better prepared for lectures and classroom discussions. The user-friendly system provides a convenient way to engage students while assessing progress. Performance data can be used to tailor classroom discussion, activities, and lectures to address students' needs precisely and efficiently. For more information and sample material, visit <http://garlandscience.rocketmix.com/>. With authors who are both accomplished researchers and educators, Vollhardt and Schore's Organic Chemistry is proven effective for making contemporary organic chemistry accessible, introducing cutting-edge research in a fresh, student-friendly way. A wealth of unique study tools help students organize and understand the substantial information presented in this course. And in the sixth edition, the themes of understanding reactivity, mechanisms, and synthetic analysis to apply chemical concepts to realistic situations has been strengthened. New applications of organic chemistry in the life sciences, industrial practices, green chemistry, and environmental monitoring and clean-up are incorporated. This edition includes more than 100 new or substantially revised problems, including new problems on synthesis and green chemistry, and new "challenging" problems. Hybrid language teaching and learning, also referred to as blended learning, has become an increasingly popular model for the delivery of foreign language (FL) courses at the college level in the United States. HYBRID LANGUAGE TEACHING AND LEARNING: EXPLORING THEORETICAL, PEDAGOGICAL AND CURRICULAR ISSUES addresses a number of theoretical and applied topics related to hybrid/blended contexts. The volume is useful for readers unfamiliar with hybrid approaches, as several chapters highlight practical concerns and contain suggestions from authors who have experience implementing and maintaining college-level hybrid FL courses. In addition, the volume serves to disseminate empirical work that focuses on the linguistic outcomes of learners in hybrid FL learning contexts. Finally, the issue of open educational resources/open access is discussed in the context of hybrid FL courses. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. MORE! is a four-level course from a highly respected author team that's bursting with features for lower secondary students. A Cyber Homework access code on the CD-ROM gives students access to two sets of online interactive exercises per unit. Teachers set and monitor the homework and receive results for the whole class without doing any marking! Students and teacher can send each other notes and questions via the online messaging system. For more information visit www.cambridge.org/elt/more/cyberhomework A version of the Student's Book with CD-ROM without Cyber Homework is also available. Note: This is the 3rd edition. If you need the 2nd edition for a course you are taking, it can be found as a "other format" on amazon, or by searching its isbn: 1534970746 This gentle introduction to discrete mathematics is written for first and second year math majors, especially those who intend to teach. The text began as a set of lecture notes for the discrete mathematics course at the University of Northern Colorado. This course serves both as an introduction to topics in discrete math and as the "introduction to proof" course for math majors. The course is usually taught with a large amount of student inquiry, and this text is written to help facilitate this. Four main topics are covered: counting, sequences, logic, and graph theory. Along the way proofs are introduced, including proofs by contradiction, proofs by induction, and combinatorial proofs. The book contains over 470 exercises, including 275 with solutions and over 100 with hints. There are also Investigate! activities throughout the text to support active, inquiry based learning. While there are many fine discrete math textbooks available, this text has the following advantages: It is written to be used in an inquiry rich course. It is written to be used in a course for future math teachers. It is open source, with low cost print editions and free electronic editions. This third edition brings improved exposition, a new section on trees, and a bunch of new and improved exercises. For a complete list of changes, and to view the free electronic version of the text, visit the book's website at discrete.openmathbooks.org Envision a math program that engages your students as it strengthens their understanding of math.

enVisionMATH uses problem based interactive learning and visual learning to deepen conceptual understanding. It incorporates bar diagram visual tools to help students be better problem solvers, and it provides data-driven differentiated instruction to ensure success for every student. The best part, however, is that this success is proven by independent, scientific research. Envision more, enVisionMATH! Wider World is the portal to a fascinating world of English language knowledge and skills for the 21st century learner. The combination of authentic and engaging videos from the BBC with Pearson's ELT expertise gives teenage learners everything they need to achieve their goals in the wider world. Increase understanding and reinforce lessons Strengthen instruction with these interactive workbooks that complement the enVisionMATH curriculum. Extra practice on conceptual understanding and problem solving helps increase understanding and reinforce lessons. Skill Builders are great tools for keeping children current during the school year or preparing them for the next grade level. A variety of fun and challenging activities provides students with practice and helps introduce basic skills to new learners. This full-color workbook contains appropriate passages and exercises based on national standards for third grade to help ensure that children master necessary math skills before progressing. Skill Builders combines entertaining and interactive activities with eye-catching graphics to make learning and reviewing fun and effective. The compact 6" x 9" size makes this book perfect for school, at home, or on the go. It features 80 perforated, reproducible pages and an answer key. Active Maths Practice & Homework 5 is arranged in units, which provide an open-ended task for the week, exercises in mental computation, review of concepts tackled in the previous week, and ample practice of the current week's work. Active Maths Practice & Homework 5 is ideal for homework or extra practice in the classroom. Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms. Collects fifty humorous assignments completed by online essay-writing companies. An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students. Counsels parents and teachers on how to establish strong home-school connections through family activities that extend learning, outlining parent-participation homework projects in a range of subjects that are designed to reinforce classroom teachings. Original. It truly is remarkable how many people don't even notice when the years slip by and then they accidentally look in the mirror and wonder who is looking back. Take time to understand "Save The Pretty - Save The Handsome" in how it personally relates to your life, so you can empower yourself. It will make a rewarding difference when you get back in charge of your heart, your life, your well-being and capture dreams before more time slips by. The steps of this workbook will give you the tools to dig deep within yourself on your search for answers. It's not about rushing through the workbook like it is a homework assignment to check off your list. Allow yourself to truly feel and explore all the insights and emotions that come to the surface as you discover clarity. Wider World is the portal to a fascinating world of English Language Knowledge and skills for the 21st century learner. The combination of authentic and engaging videos from the BBC with Pearson's ELT expertise gives teenage learners everything they need to achieve their goals in the wider world. MORE! Second edition is a four-level English course from recognised authors for lower secondary students. This new edition is bursting with added features and an even more user-friendly design to capture young teenagers' imagination and help improve their learning. The course encourages reading for pleasure with new adventure photostories and engaging texts. Both CLIL sections, now an integral part of each lesson, and mini-projects inspire teenagers' natural curiosity. In addition to dedicated grammar, vocabulary and skills sections, MORE! also helps improve your students' exam results with new exam skills sections and learning tips in the Workbook. Each level of MORE! offers 80-90 hours of teaching material and a rich choice of digital components for you and your students. Cyber Homework and web resources make homework and language practice enjoyable for students, while the Interactive Classroom DVD-ROM, Testbuilder CD-ROM and DVD provide additional support with teaching and monitoring your students' progress. The final installment of enVisionMATH, Grade 6, ensures that your child has a solid understanding of fundamental math concepts. This curriculum for homeschooling features a host of math activities that provide hands-on education for your child. Furthermore, the materials use pictures and graphs to cater to visual learning styles. Whether your child likes to try math problems to better grasp the concepts you teach or use visual aids, enVisionMATH will help him or her excel. When you select enVisionMATH: Grade 6, you'll get all the tools you need to create dynamic and interesting lesson plans. This program is organized by math concept. Over time your child will learn to: Understand the concept of ratios. Multiply and divide using fractions. Apply prior math knowledge to rational and irrational numbers. Solve algebraic equations that use a single variable. Differentiate between dependent and independent variables. Solve area equations for 3-D shapes. Understand and use absolute value. Use graphs to explain distribution. Comprehend and use median, mode, range, minimum, maximum and mean. enVisionMATH: Grade 6 will also further develop your child's problem-solving skills and improve his or her quantitative- and abstract -thinking

abilities. The information and skills your child gleans from this curriculum, and the lessons you teach with it, will help him or her in other subject areas as well. The Grade 6 curriculum transitions smoothly from Grade 5, ensuring your child is ready to move to the next math level. Independent scientific research has proven that the enVisionMATH series is successful in teaching math education. When you use this set, you know you'll be helping your child achieve his or her learning goals. For more information on the specific materials included in enVisionMATH: Grade 6, visit the Features and Benefits page. Maths Homework for Key Stage 2 is a unique resource for busy teachers – a selection of 'pencil-free', hands-on activities that teachers can use as extension activities or give to pupils as homework to do with members of their family or friends. Each of the activities encourages the pupils to learn through discussion and through practical activities utilising everyday resources. Each activity is quick and easy for pupils and teachers to manage, and includes: a learning aim full, clear instructions and discussion points tasks to develop collaboration and partnership between pupils, parents and teachers photocopyable resources. A refreshing approach for teachers and pupils, these activities will foster enthusiasm for learning and inspire pupils' interest in Maths.
